

Abundant Business

igniting the energy that powers your business...

Facilitator:
Rebecca Levy

Small business is in my blood! I'm a fourth generation small business owner and grew up watching my dad grow his three small businesses and my mum working in marketing and teaching small business management.

I've spent the last 17 years working in, on and with small businesses in a variety of roles including business manager, sales and account management and training roles.

My experiences have given me a clear insight into what makes a business successful and my passion is to educate and empower small business owners to achieve their personal and professional goals. This is what makes my heart sing and I look forward to meeting you soon.

Rebecca

"Rebecca showed me tools and ways of thinking about activities I need to do, but often don't! They include branding, marketing and building my business. She ties it all together, and keeps the unique 'you' in the business at the same time. In fact, she shows you how to use it. Because Rebecca works from her own passion, she can help us tap into ours."

— Katie McMurray, KatieMac Publicity

An **abundant business** is a thriving business; supported by motivated and engaged staff delivering great products and services, profits will bloom by generating a flow of happy customers.

'Abundant Business' will empower you to make transformational changes and inspire renewed passion and confidence to enrich your business. Learn to create a whole new level of abundance for yourself and your business by embracing powerful tools and techniques to change the way you think about both.

In this 1 day workshop you will learn how to:

- **Understand how to maximise your personal energy investment to create flow** – identify specific energy boosters and energy drainers that influence your business.
- **Remove limiting blocks that prevent you developing an abundant business** – recognise and embrace challenges to move outside your comfort zone.
- **Open yourself to new ideas and inspirations** – be leading edge to deliver more dynamically to your customers. Walk away from the day with at least 3 new ideas to get started on.
- **Re-discover the energy of giving back** – understand how supporting community contributes to abundance on all levels; explore opportunities locally and globally.

10% of profits generated from 'Abundant Business' will go to supporting the *Hands with Hands* organisation in Nepal – assisting women and children in need, including children's homes and supporting rural women in their own businesses. www.handswithhands.org
