

Heartwarmers for business

a monthly forum

A new approach to networking - supporting and empowering you with fresh ways to address your business

Facilitator:
Rebecca Levy

Small business is in my blood! I'm fourth generation small business owner and grew up watching my dad grow his three small businesses and my mum working in marketing and teaching small business management.

I've spent the last 17 years working in, on and with small businesses in a variety of roles including business management, sales and account management and training roles.

My experiences have given me a clear insight into what makes a business successful and my passion is to educate and empower small business owners to achieve their personal and professional goals. This is what makes my heart sing and I look forward to meeting you soon.

Rebecca

Being a small business owner can be very satisfying, but often presents challenges ...

- ♥ Would you like a regular opportunity to bounce your ideas and inspiration off other business owners?
- ♥ Are you looking for fresh approaches for your business?
- ♥ Feeling alone and unsupported in your business?
- ♥ Struggling with working "in" and "on" your business at the same time?
- ♥ Dealing with the same issue without knowing what to change?

Heartwarmers for Business is a monthly forum created to bring small business owners together to support each other in an open and honest environment – whether it's looking for a new approach to the same issue you've been dealing with, getting a new idea off the ground or finding out about ways to balance being the 'jack/jill of all trades' in your business.

The evening consists of two parts:

- **presentation of a hot topic** for small business owners
- **a forum** for participants to workshop their current issues

We are creating a business community to support one another in growing business together. Spaces are limited each month to ensure each participant receives the support they require.
